Summary

I am an Associate Professor at the Department of Computing and Systems Engineering at Universidad Católica del Norte in Antofagasta, Chile, where I also serve as Secretary of Research and Technological Development for the Faculty of Engineering and Geological Sciences. I am the Director of the *Artificial Intelligence Innovation Center for the Antofagasta Region* project, funded by the regional government of Antofagasta. My research encompasses visual analytics, artificial intelligence, text analytics, and computational narratives, with particular emphasis on developing interactive narrative maps using AI techniques. I currently lead two ANID research projects in the field of *Interactive Narrative Analytics*, including a FONDECYT Initiation Grant and a FONDEF IDeA grant in collaboration with industry. I also work in applied data science in different areas, including mining, geochemistry, and education. I completed my *Ph.D. in Computer Science and Applications* at Virginia Tech in July 2023, which I began in 2019 with the support of the *Fulbright Faculty Development* program, Universidad Católica del Norte, and the government scholarship program *Becas Chile*.

Academic Positions

Universidad Católica del Norte, Antofagasta, Chile.
Secretary of Research and Technological Development Jul 2024 – Present
Faculty of Engineering and Geological Sciences

Universidad Católica del Norte, Antofagasta, Chile.
Associate Professor Jan 2026 – Present
Department of Computing and Systems Engineering

Universidad Católica del Norte, Antofagasta, Chile.
Assistant Professor Aug 2018 – Dec 2025
Department of Computing and Systems Engineering

Universidad Católica del Norte, Antofagasta, Chile.
Instructor (Full Time) Mar 2017 – Jul 2018
Department of Computing and Systems Engineering

Universidad Católica del Norte, Antofagasta, Chile.
Instructor (Part Time) Mar 2015 – Feb 2017
Department of Computing and Systems Engineering, Department of Mathematics

Education

Virginia Tech, Blacksburg, VA, USA.
Ph.D. in Computer Science and Applications Aug 2019 – Aug 2023
Dissertation: Narrative Maps: A Computational Model to Support Analysts in Narrative Sensemaking
Advisors: Dr. Chris North and Dr. Tanushree Mitra. **GPA:** 4.0/4.0

Universidad Católica del Norte, Antofagasta, Chile.
Master's in Informatics Engineering Mar 2016 – Aug 2017
Thesis: Hybrid machine learning methods for multiclass sentiment analysis.
GPA: 6.9/7.0

Bachelor of Mathematics Mar 2012 – Aug 2017
Thesis: Applications of spectral graph theory in artificial neural networks.
GPA: 6.7/7.0

Professional Title: Computing and Informatics Civil Engineering Mar 2010 – Aug 2016
Bachelor of Science in Engineering
Thesis: Opinion mining and sentiment analysis applied to paper reviews.
GPA: 6.7/7.0

R&D Grants and Projects

- Principal Investigator in the *ANID FONDECYT Project* "Interactive Narrative Analytics: Developing scalable knowledge-based narrative extraction models and visual analytics systems for sensemaking in complex information landscapes". Project code: FONDECYT 11250039.
- Director *ANID FONDEF Project* "Narrative Panopticon: Intelligent platform for mapping and monitoring information narratives from multi-source data streams". Project code: FONDEF ID25I10072.
- Director of the *FRPD 2024 Project* "Artificial Intelligence Innovation Center for the Antofagasta Region" funded by the Antofagasta Regional Government as part of the Regional Fund for Productivity and Development. Project code: BIP 105908-9.
- Director of the *Internal UCN Initiation Grant 2023* Project "Diseño y evaluación de representaciones computacionales de narrativas de noticias basadas en inteligencia artificial y mapas narrativos". Project code: VRIDT 202311010033.
- Adjunct Director in the *ANID FONDEF IT Project* "Intelligent platform for environmental management and soil monitoring in the Antofagasta Region, through baseline modeling using artificial intelligence". Project code: FONDEF IT24I0030.
- Researcher in the *ANID FONDEF IDeA Project "Technological platform for the visibility of heritage collections based on generative artificial intelligence"*. Project code: ID25I10169
- Researcher in the *ANID FONDEF IDeA Project* "Stabilization process of copper tailings, for their use as aggregate in construction materials". Project code: FONDEF ID22I10236.
- Researcher in the *CONICYT International Networks Project* "Bayesian multidimensional classifiers for emotion interpretation in text and video". Project code: REDI170607.

Teaching Projects

- Project Director "Implementation of an Elective Course in Research Experiences for Students of the Faculty of Engineering and Geological Sciences", Undergraduate Teaching Projects Development Fund, Universidad Católica del Norte, 2024.
- Collaborator in project "Construction of Instruments and Procedures for Progressive Monitoring of Skill Development in Integrative Courses for Industrial Civil Engineering According to CDIO Standard", Undergraduate Teaching Projects Development Fund, Universidad Católica del Norte, 2023.
- Collaborator in project "Integrative Project of Basic Sciences and Applied Engineering", Undergraduate Teaching Projects Development Fund, Universidad Católica del Norte, 2017.

Teaching Experience

Universidad Católica del Norte, Antofagasta, Chile.

- Data Visualization (Undergraduate): 2024/2
- Topics in Informatics Engineering, Data Engineering Module: 2024/1, 2025/1
- Data Science (Graduate): 2017/2, 2018/2, 2024/1, 2025/2
- Scientific Research for Undergraduates: 2024/1
- Data Visualization (Graduate): 2023/2, 2024/2
- Introduction to Data Science: 2017/2, 2018/2, 2023/2, 2024/1.
- Foundations of Computing: 2017/2 to 2019/1, 2023/2.
- Probability & Statistics: 2016/2, 2017/1.
- Automata Theory & Formal Languages: 2016/1

- Analysis & Design of Algorithms: 2015/2 to 2017/1.
- Compilers: 2015/2, 2016/2, 2017/2, 2018/2.

Awards and Honors

- COE Pratt International Scholarship, Virginia Tech, 2023.
- Beca Chile Doctoral Studies Scholarship, CONICYT, 2019 - 2023.
- Fulbright Faculty Development Scholarship, Fulbright Chile, 2019 – 2021.
- Best Student of the 2017 Graduating Class, Faculty of Sciences, Universidad Católica del Norte.
- Best Student of the 2016 Graduating Class, Faculty of Engineering and Geological Sciences, Universidad Católica del Norte.
- "Alumno Destacado UCN" (Best Student of the University), Universidad Católica del Norte, 2013.
- "Alumno Destacado DISC" (Best Student of the Department), Department of Computing and Systems Engineering, Universidad Católica del Norte, 2012.

Professional Memberships

- Member, Association of Computing Machinery (ACM)
- Member, Institute of Electrical and Electronics Engineers (IEEE)
- Member, Chilean Society of Computer Science (SCCC)

Outreach and Professional Service

Administrative Duties

- UCN Academic Representative in the Directorate of "*Fundación Parque Científico Tecnológico*" (2025 – Present).
- Academic Director of the Big Data Postgraduate Diploma 2018 - 2019, Universidad Católica del Norte.

Editorships

- Associate Editor: *Intelligent Data Analysis*, 2023 - Present
- Editorial Board: *Intelligent Data Analysis*, 2019 - Present.

Conference and Workshop Organizing Committees

- International Conference on Computing and Informatics in North of Chile (INFONOR-CHILE), 2019.
- Workshop on Data and Knowledge Engineering at INFONOR-CHILE (WDKE), 2017, 2018, 2024.

Technical Program Committees

- International Conference on Computing and Informatics in North of Chile (INFONOR-CHILE), 2018, 2019, 2020, 2021, 2022, 2023.
- International Conference on Recent Trends in Image Processing & Pattern Recognition (RTIP2R), 2018, 2020.

Technical Reviewer

- *Journals:*
    - Data Mining and Knowledge Discovery, 2025
